DR. L. J. CZAPKAY'S
GRAND MEDICAL & SURGICAL INSTITUTE.
ARMORY HALL BUILDING,
Corner of Montgomery and Sacramento sts., San Francisco.

Established for the Permanent Cure of all Private and Chronic Diseases, and the suppression of quackery.

Dr. L. J. CZAPKAY, late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, and late Lecturer on diseases of Urinary Organs and Diseases of Women and Children would most respectfully inform the public of California that he has opened an Institute for the cure of Chronic Diseases of the lungs, liver, kidneys, digestive and genital organs, and all Private Diseases, viz: Syphilitic Ulcers, Gonorrhœa, Gleet, Stricture, Seminal Weakness, and all the horrid consequences of self-abuse, and he hopes that his long experience and successful practice of many years will insure him a share of public patronage. By the practice of many years in Europe and the United States, and during the Hungarian War and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kind. He uses no Mercury—charges moderate—treats his patients in a correct and honorable way—has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter, or otherwise, will receive the best and gentlest treatment and implicit

Dr. L. J. CZAPKAY is daily receiving applications from every part of this State and from Oregon and Washington Territories, for treatment of evey form of disease, and there is not one who will come forwardand express dissatisfaction; on the contrary, the Doctor is in daily receipt of letters expressive of gratitude and thankfulness, some of which are published below by permission.

A Tribute to Merited Worth.

☞ A TESTIMONIAL RICHLY MERITED.—The ingratitude of man to his fellow man is so often met with in life, that testimonials, prompted by the finer feelings of the heart, are oasis in the life of those who sacrifice their best days in philanthropic devotion to the alleviation of the ills of frail mortality. Empiricism floods the columns of our press with fraudulent and fictitious letters; singing peans to the worth of their own egotistical charlatanism. Below we append a letter from an worthy man, who, a brief period since, seemed destined to "shuffle off this mortal coil;" who looked forward to his dissolution with that pleasure which only those weighed down by the heavy hand of disease can. Contrary to hope, the ability of a skillful physician has restored him to his former health. Relieved from his terrible situation, and impelled by gratitude, he makes known his case and remedial agent, and his statement is authenticated by a Notary Public. The demands of society imperiously command its publicity; and it is given more to warn the unwary than to sound the praises of a physician of whom scores of like cases can be cited:

CERTIFICATE.

The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practice of uncontrollable passion in youth; depressed in body and mind; unable to perform even the most trifling duty imposed upon the daily avocations of life, I sought the advice of many physicians, who at first regarded my disease of trifling importance—but alas! after a few weeks, and in several instances months, of their treatment, I found to my unutterable horror, that instead of relief, the symptoms became more alarming in their torture; and being told by one that my disease being principally confined to the brain, medicines would be of little consequence, I despaired of ever regaining my health, strength and energy, and as a last resort and with but a faint hope, called upon Dr. Czapkay, who after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by this result, I resolved to place myself immediately under his care, and by a strict obedience to all his directions and advice, my head became clear, my ideas collected; the constant pain in my back and groins; the weakness of my limbs; the nervous reaction of my whole body on the slightest alarm or excitement; the misanthropy and evil forebodings; the self-distrust and want of confidence in others; the incapability to study, and want of resolution; the frightful, exciting, and at times pleasurable dreams at night, followed by involuntary discharges, have all disappeared; and in fact, in two months after having consulted the Doctor, I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand.

With a view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured, by my own experience, that under his care a radical and permanent cure will be effected. B. F. FILLMORE.

State of California, County of San Francisco. Subscribed and sworn before me, this 17th day of April, 1856. (Signed) JOHN MIDDLETON, [L. S.]
Notary Public.

A CARD.—I the undersigned, having been under the treatment of Dr. L. J. Czapkay, although unsolicited, feel called upon to give publicity to the efficacy of his treatment, hoping that by doing so I may be instrumental in preventing others from the fearful suffering and misery which I experienced, and which so often result from the pernicious practices of pretenders. My disease has been that of Physical and mental debility, which follows in consequence of the indiscretion in youth. The agonies which I endured are, perhaps, unnecessary for me to detail, they are known to those who have experienced them. Suffice it to say, that having called the services of Dr. L. J. Czapkay in requisition, all my expectations which I may have formed of him were more than realized. I would therefore recommend Dr. Czapkay to all who may find themselves afflicted with that dreadful malady, my object in so doing being sympathy for suffering humanity, and a heartfelt desire of relieving them.

D. J DAHLEE, Printer.

State of California, City and County of San Francisco, ss.—On this thirty-first day of July, A. D. 1856, before me, Wm. C. Jewett, Notary Public, personally appeared D. J. Dahlee, known to me, who, being duly sworn, did depose and say, that the contents of the card herewith signed by him is true.

In witness whereof I have hereunto set my hand, and affixed my official seal, the day and year first above written. WM. C. JEWETT,
[L. S.] Notary Public.

Greatest Discovery of the Age.

GREAT BLESSING TO MANKIND!—Innocent but potent! Dr. L. J. Czapkay's Prophilacticum, (self-disinfecting agent,) a sure preventive against gonorrhœal and syphilitic diseases, and an unsurpassed remedy for venerial, scrofulous, gangrenous and cancerous ulcers, fœtid discharges from the vagina, uterus and urethra, and all cutaneous eruptions and diseases. As innoculation is a preventive against small-pox, so is Dr. L. J. Czapkay's Prophilacticum a preventive against syphilitic and gonorrhœal diseases. Although harmless in itself, it possesses the power of chemically destroying the syphilitic virus, and thereby saving thousands from being infected by the most loathsome of all diseases. Let no young man who appreciates health be without Dr. Czapkay's Prophilacticum. It is in very convenient packages, and will be found convenient to use, being used as a soap. Price $5. For sale at Dr. Czapkay's Private Medical and Surgical Institute, Armory Hall, corner of Montgomery and Sacramento streets, San Francisco.

All orders must be addressed to L. J. Czapkay, M. D., San Francisco, California.

The Fall of the Charter Oak.

BY WILLIAM RODERICK LAWRENCE.

Respectfully inscribed to the Hon. I. W. Stuart, of whose beautiful grounds this tree has so long been the principal ornament.

[For some time past the Hon. I. W. Stuart had been engaged in writing the history of this famous old tree, and had finished the last chapter at midnight, September 20th, therein stating that the Charter Oak would probably survive many years to come. He laid aside his pen, and about 1 o'clock on the morning of the 21st, during a severe storm, he heard a crash, and the old oak was no more among the living. At sundown on the same day, all the bells of the city were tolled, and the American flag shrouded with crape, was hung over the prostrate tree, to share the sincere sorrow which its destruction had awakened in the hearts of the citizens of Hartford, who, from their earliest childhood, had gazed with veneration upon this time-honored veteran of the forest, and the preserver of their liberties.]

I.

BETWEEN the hour of midnight and of morn,
Hid from all eyes by night's tempestuous veil—
Where boisterous winds did fiercely, loudly warn,
Thou, on thine old foundation firm, didst quail.
Two thousand years perchance, had o'er thy head
Passed in succession, yet, thou wast not dead,
But tossed thy massive branches proudly high,
And waved thine emerald pennons in the sky.

II.

The Indian 'neath thy limbs hath met his foe,
Waged a fierce warfare, conquered in the strife,
Or by the stranger's arrow was laid low,
And 'neath thy grateful shade breathed out his life.
The pipe of peace around thy trunk was passed,
When battles o'er, the foes were friends at last.

III.

With each returning spring the red man scanned
Thy swelling buds, to ascertain the time
To plant his corn when genial breezes fanned
The springing verdure in this changing clime.
At his request they spared *thine* honored head,
But thy companions leveled with the dead.

IV.

In *later* years, when suffering and oppressed,
As people sighed for Liberty and Right,
Thine open heart received thy missive blest,—
And hid it safely from the Tyrant's sight;
Which certain rights to them did guarantee,
And lit the spark which was to set them free.

V.

But during those long, dark, eventful years,
Which tried the *bodies* and the *souls* of men,
When Hope burnt low alternating with fears,
To *whom*, in trial, did they look to then?
They looked to HIM who aids the righteous cause,
Upholding all who still obey his laws.

VI.

And many a dreary stormy night of woe,
Anxious for what the morning's light would bring,
Beneath thy branches, 'mid the blinding snow,
Did noble hearts still close and closer cling,
As burned the signal fires beside thy form—
Grim earth and shadowy 'mid the raging storm.

VII.

Of late revered and honored for the past
Assigned to thee in these dark days of strife—
Enshrined in every freeman's thanful heart—
How many years has Stuart watched thy life;
And all that *art* and *care* could e'er devise
Was done to save entire the precious prize.

VIII.

On that dark night, when none thy fall discerned,
But HIM who planted and who watched thy growth,
Thy proud majestic form was overturned
And fell to earth, and now lies mourned by both
The native of this free and fertile soil,
And the adopted son of liberty and toil.

IX.

Thy name will live on History's blazoned page
While freemen breathe within this glorious land
Thy fame will still increase from age to age,
Although thy giant form no longer stand,
As heretofore, a warning to the free,
To prize their country, Justice, Liberty.

X.

Our nation's flag is waving o'er thee now!
With sable draped in mourning for thy fall,
And we in pride can point to thee no more—
For time has thrown around his dusky pall,
To hide thee from the eyes which ever blest
Thy massive trunk, thy darkly waving crest.

XI.

And many a faded leaf which once was green—
A portion of thine emerald coronal—
Enshrined in golden frames may now be seen,
Considered sacred since thy direful fall.
While the few acorns from those branches old
Are almost valued at their weight in gold.

XII.

Yes! thou art gone, with all thine ancient pride,
Connecting centuries long past with this;
And as these years into the future glide,
Many brave hearts thy noble form will miss.
But memory will cherish thee for aye,
The name of "CHARTER OAK" can *never* die,
While LIBERTY *our country's boast shall be.*
With grateful hearts we will remember THEE!

FASHIONABLE LIFE IN PARIS.—The fashionable clubs of Paris have been thrown into some excitement by the publication in the morning papers of the names of the most popular dandies of Paris, with their debts, which are to be put up at auction, and sold to the highest bidder. It looked at first like a sort of "black list;" and nothing was talked of but horsewhipping the impertinent scoundrels who asked for money which was owing to them. But it soon appeared that this publication was a matter of form consequent on the dissolution of a patnership, all the unpaid bills sold at auction. It created a great deal of astonishment that such names should be found with such bills; for men reputed to have large fortunes were found to have bills of seven or eight years standing unpaid. There are some strange secrets in rich men's lives. Some time ago it was discovered that a fashionable nobleman in England had not paid his butcher's bill for twenty-five years; another wealthy man had paid his servants no wages for twelve years; and we have here seen young men of fortune, with fine turnouts—unpaid for; admirable horses—unpaid for; fine furniture—unpaid for; fine clothes—unpaid for! Time flies by with its accustomed speed; bulks increase new items and interest; settling day comes; the young man finds his patrimony exhausted; he spends his last napoleon in a fine dinner at the Cafe de Paris, and quietly leaps, after midnight, from the Pont Neuf, or blows out his brains in a secluded lane of the Bois de Bologne.—That's life in Paris!

The Orizaba will sail for Nicaragua on the 20th.

Washington's Last Moments.

Governor Wise, of Virginia, delivered an oration on "the Fourth," in which he thus described the last moments of Washington:

He died as he lived, and what a beautiful economy there was in his death! Not a faculty was impaired, not an error marred the moral of his life. At sixty-six, not quite three score year and ten, he was taken away, whilst his example was perfect. He took cold, slighted the symptoms, saying, "Let it go as it came." In the morning of the 14th of December, 1799, he felt severe illness; called in his overseer, Mr. Rawlings, to bleed him.—He was agitated, and Washington said to him, "Don't be afraid." When about to tie up his arm, he said with difficulty, "more." After all efforts had failed, he designated the paper he meant for his will, then turned to Tobias Lear and said, "I find I am going; my breath cannot continue long. I believed from the first it would be fatal. Do you arrange my accounts and settle my books, as you know more about them than any one else, and let Mr. Rawlings finish recording my other letters which he has begun." Between 5 an 6 o'clock he said to his physician, Dr. Craik, "I feel myself going; you had better not take any more trouble about me, but let me go off quietly; I cannot last long." Shortly after, again he said, "Doctor, I die hard; but I am not afraid to go. I believed from my first attack I should not survive it. My breath cannot last long." About 10 o'clock he made several attempts to speak to Mr. Lear, and at last said, "I am just going. Have me decently buried, and do not let my body be put into the vault in less than two days after I am dead." Lear says, "I bowed assent. He looked at me again, and said, 'Do you understand me?' I replied 'yes, sir.'—"'Tis well," said he. And these were his last words, and 'tis well his last words were "'tis well." Just before he expired he felt his own pulse; his hand fell from his wrist, and George Washington was no more.

STRYCHNINE ANALIZED.—The drug which has lately become so notorious for destorying the lives of human beings—as in the case of the infamous Dr. Plamer, recently executed in England— is a most deadly organic poison. A dog has been killed with the sixth part of a grain of it, and a human being with less. When introduced into the stomach it acts with fearful energy, causing lockjaw immediately, violent spasms, and death in a few minutes. It is odorless, but so intensely bitter as to be perceptible to taste when one part is diluted in a million parts of water. The composition strychnia is carbon forty-four, hydrogen twenty-four, oxygen four, nitrogen two equivalents. It is colorless, and forms soluble crystalizable salts. It is an alkaline base, and extracted principally from the *strychonx nux vomica*. The tree from which it is obtained is of moderate size, and grows in several parts of the East Indies and the Islands of Ceylon. Its fruits are large orange-colored berries, the pulp of which is the favorite of many birds. The seed contains the deadly poison. They are flat and round, about an inch in diameter, and grey in color. These seeds were used as medicine and as a poison by the Hindoos, long before they were known in Europe. Many of the natives of Hindoostan often use it as people use opium. They commence with taken the eighth of a nut every day, and gradually increase their allowance to an entire nut, which would be about twenty grains. If they eat it directly before or after food, no unpleasant effects are produced; but if they neglect this precaution, spasms are the result. The bark of the tree is also poisonous, and from its resemblance to to Augustura or Cusparia bark, a tonic medicine imported from South America, caused a deal of alarm and excitement in Germany, in the early part of this century, by being mixed with that bark. No sure antidote has yet been discovered for this poison, but some chemists have attained to great skill in detecting it when administerd as a poison.

CAN DO THEIR OWN KISSING.—Not a thousand miles from this village lives a very exacting landholder. He makes his tenants "come to time" on the very day the rent is due, and will only relax his stern decrees when a handsome woman is in question. Not long since he called for his rent of a very worthy mechanic, who, by the way, rejoices in the possession of a very pretty little wife. The husband was enchanted with the pretty little wife of the tenant. She could not liquidate the amount due; but the landlord, becoming really enamored, told her he would give her a receipt in full for just one kiss.

Sir, said she, boiling with indignation, "myself and husband are very poor; perhaps we cannot pay our rent; but we can do our own kissing!" Ain't that a glorious consolation for poor folks? The hardened creditor may take all their property, but he can't deprive them of the privilege of kissing.

RATHER AWKWARD.—A young and handsome lady was a few days since a passenger in an omnibus in New York, in which was a party of Spaniards, who began in their own language a rather particular discussion of her charms. They continued it without any restraint until they reached their destination. In getting out, one of them happened to step upon her dress. What was his astonishment to hear her quietly inform him of the fact in frightful good Castillian. Their astonishment and embarrassment, chagrin, and excuses, and apologies, are all in that long catalogue of things which "only can be imagined."

Extraordinary activity prevails at present in the royal foundry at Munich, which was established by King Louis I. No fewer than seven colossal castings in bronze are in progress—among which is an equestrian statue of Washington, destined to form the centre of an immense monument to be erected in Virginia, and which is to be surrounded by 40 colossal statues of men who distinguished themselves in the war of Independence.

A Russian Slave.

The Allgemeine *Zietung* gives the following illustration of serfdom in Russia, as of recent occurrence:

Among the serfs owned by a widow lady was a girl who had been brought up with unusual indulgence, had received a superior education, and acquired manners far more cultivated than belonged to her class, to which advantages was added the natural gift of an attractive person. At an early age she was apprenticed at St. Petersburg to a French dressmaker; and having attained to some skill in the business, she was after a time offered profitable employment.

This her mistress permitted her to accept, on the usual payment of an *obrok* to herself, in lieu of personal service. The girl conducted herself well in her situation, acquired a knowledge of the French language and formed habits of considerable refinement. Here she attracted the notice of an officer of the rank of colonel, who in due time proved his attachment by offering her marriage. The girl accepted the proposal, and nothing remained but to obtain her freedom from her mistress.—The purchase money the colonel was willing to pay. This ought to have been regulated by the *obrok* which the girl had paid, calculated at so many years' purchase. The officer, however, was not disposed to cavil about the price, but on applying to the mistress, to whom he unfortunately explained his purpose, he received for answer that on no terms whatever would she emancipate her slave.

Every effort was used to shake the resolution, which appeared unaccountable; but argument, entreaty and money were alike unavailing, and the lady remained inexorable, giving in the end the clue to her obstinacy by observing that she would never see her serf take precedence of her, as she would do if married to a colonel, while she was herself but the widow of a major. The match was necessarily broken off, and the girl's prospects of happiness destroyed. To complete her misery, her mistress revoked her leave of absence, and ordered her immediately to return to her native village. Arrived in the village, the unhappy girl, accustomed to the habits and comforts of civilized life, was clothed in the coarse garments of an ordinary peasant, and was forthwith ordered to marry a rough *moujik* of the same class. Revolting at this tyranny and refusing to obey, she was flogged, and though she still resisted for a while, a long continuance of cruel and degrading treatment conquered her in the end, and she was forced to submit to the miserable lot entailed upon her by the wretched jealousy of her heartless mistress.

Why Jewesses are Beautiful.

Chateaurbland gives a fanciful but an agreeable reason for the fact that Jewish women are so much handsomer than the men of their nation. He says that Jewesses have escaped the curse which alighted upon their fathers, husbands and sons. Not a Jewess was to be seen among the crowd of priests and rabble who insulted the Son of God, scourged Him in infamy and the agony of the cross. The women of Judea believed in the Savior and assisted him under affliction. A woman of Bethany poured on his head precious ointment, which she kept in a vase of alabaster. The sinner anointed his feet with perfumed oil, and wiped them with her hair. Christ on his part intended mercy to the Jewesses. He raised from the dead the son of the widow Nain, and Martha's brother Lazarus. He cured Simon's mother-in-law, and the woman who touched the hem of his garment. To the Samaritan women he was a spring of living water, and a compassionate judge to the woman in adultery. The daughters of Jerusalem wept over him; the holy women accompanied him to Calvary—brought him balm and spices—and, with weeping, sought him in the sepulchre. Woman, why weepest thou? His first appearance after the resurrection, was to Mary Magdalene. He said to her, "Mary." At the sound of his voice, Mary Magdaline's eyes were opened, and she answered, "Master."—The reflection of some beautiful ray must have rested on the brow of the Jewess.

FRANKLIN'S SON—The inauguration of the Franklin statue at Boston, has been the occasion for receiving incidents connected with the life of the philosopher. His only son, William, was Governor of New Jersey at the time of the Declaration of Independence, and did what he could to prevent the Legislative Assembly of New Jersey from sanctioning the proceedings of the General Congress of Philadelphia. These efforts, however, did but little to stay the tide of popular sentiment in favor of resistance to tyranny, and soon involved him in diffi ulty. He was deposed from office by the Whigs, to give place to William Livingston, and sent a prisoner to Connecticut, where he remained about two years, in East Windsor, in the house of Capt. Ebenezer Grant, near where the Theological Seminary now stands. In 1778 he was exchanged, and soon after, went to England. There he spent the remainder of his life, receiving a pension from the British goverment for the losses he had sustained by his fidelity. He died in 1813, at the age of 82. The opposition of the son to the cause the father espoused, produced an estrangement between them, and in Franklin's will, speaking of his son, he says, "The part he acted against me in the late war, which is of public notoriety, will account for my leaving him no more of an estate he endeavorad to deprive me of."—*Phila. Ledger.*

NOT RUNNING.—A Buchanan man, lately, on the cars in Indiana, determined to test the truth of the fusion reports, took the vote on the train. He hurried through the cars with a paper and pencil, asking this one and that for whom they voted.—Some said Buchanan, some said Fremont, and some said Fillmore. At last he came to a white-cravated, black-coated, demure looking individual.

"Sir," said he, "who do you go for?"

"My friend," answered the saintly parsonage, "I go for Jesus Christ."

The Buchanier looked over his paper. "Sir," said he, "there is no such candidate running. If there is, I will bet you a hundred dollars he don't get fifty votes in Indiana."

Eastern Elections.

The *Golden Gate*, which arrived in San Francisco on the 14th inst, brought returns from several States; the most important of which are Indiana and Pennsylvania. These returns are so far complete as to show a large reduction of Democratic majorities—particularly in the latter State, which has, almost without exception, been democratic by large majorities for the last thirty years. Four or five thousand votes are the most that can be claimed as the democratic preponderence at the late election, which was important only as the election of Congressmen. The Democrats assert that their small majority is the result of a coalition between the supporters of Fillmore and Fremonters—and that the results of the Presidential contest will be altogether different, inasmuch as each of their candidates will then be supported by their own parties—that the present Democratic vote would be that of Buchanan, and that of the opposition will be divided—a considerable portion of which will be cast for Fillmore. This all may be so, but we very much doubt it. We cannot see why a party of men, termed the opposition, should support the Republican ticket in a State election, which is important in the election of Congressmen, and not support Fremont. We can look upon that party in no other light than as Black Republicans—and if part of them are, or have been Fillmore men, they certainly now must be considered as Fremont's supporters. There are, undoubtedly, thousands of Fillmore men who have not voted at this State election—and if this vote, (which without doubt will be small, comparatively,) is increased, it is as likely to take from Buchanan as from Fremont.—Again, it is well known that the large Quaker vote of that State is to a great degree Republican. No great proportion of this vote has been cast since the election of Harrison in 1840; and according to our information it would be cast for Fremont at the Presidential election.

In Indiana the two parties are nearly tied. The Democrats have the Governor, probably, and five Congressmen, and the Republicans have five Congressmen—one district undecided. This State too, has been strongly democratic for years, and always, we believe. The result, however, does not come up to the expectations of Republicans, who confidently hoped to carry the State by a large majority. This result is more nearly indicative of the vote for President, than that of Pennsylvania; and if the Republicans cannot carry Indiana, they can hardly hope for Illinois.

Ohio is, as was expected by all, Black Republican to the core—some thirty thousand majority attest that their preferences are for free soil—free negroes—and, we suppose, free love—Horace Greely—the *Tribune*—Fred Douglass, &c. No one is disappointed at the result. There was no Fillmore ticket in the field, and we are glad of that.

Connecticut held her election for township officers, on the first Monday in October; most of the towns had been heard from, and the general result was favorable to the Democrats.

Florida is claimed by both the Democrats and Americans. It was very generally thought that would go for Fillmore. If it does, we will fire off one gun to a dead moral certainty, when the news arrives.

South Carolina has elected her full delegation, six, to Congress, all of whom are Democrats. Keit and Brooks are among the number.

In reviewing the State elections that had taken place, prior to the sailing of the last steamer, and the state of political affairs generally, as they appear from the most reliable sources, we feel as undecided with regard to the final result as we ever have. The contest had, in some respects, more the appearance of a sectional one; but the elections in Pennsylvania and Indiana show that Fremont has *no more* than an equal chance, if that, of carrying them; and upon these States, the contest hinges, as we think. Illinois must be regarded as extremely doubtful. Great exertions, too, were being made in the South and South-West in favor of Fillmore. Between him and Buchanan the contest will be close in Kentucky, Maryland and Florida; and should Fillmore carry these States, or either of them, Buchanan will want more votes than Pennsylvania can give, to elect him.

We do not regard Fillmore's chance as worth much, and we hope the Fillmore men of Pennsylvania, in view of this, have done their duty as conservative men, and voted for that man, who of the two, in all respects is preferable—Buchanan.

The Season.

The long sunny days of summer have been gradually growing shorter—the nights cold—and everything, from the sunburnt hills to the dried creeks, cause us to look forward for the great desideratum of our county—the only hope of every resident here—the only or chief thing prayed for—rain. White frosts have long since made their appearance—cold chilling winds draw through our little valley—but "the south-wind, thick with storm," does not favor us with its dampening blasts. We all desire—pray for—rain. The farmer, that he may commence his winter's work, in loosening the soil for another crop—the miner, that he may wash out the fruits of his summer's toil—the trader, that the glittering dust may become plenty—that he may square off the long accounts for the plentiful supply of goods for the ensuing winter.

But we seem again doomed to disappointment. Three winters have worn away—we have from one to the other looked forward, hoping that the next would be a "wet winter." We have watched the various signs—and they have seemed to appear ominous of a good time coming. But "all signs fail in dry weather." We have been disappointed. At first, *water ditches* were deemed the great and saving remedy. We all—*in our imaginations*, could see them constructed, winding around our mountains, and "streams of salvation" flowing rapidly through them, supplying all with the long desired element. "But, alas for human hopes!" We have no water yet—no ditches—and not soon to have any. They are not thought of, as soon to be constructed. Ask the miner, who has heard so much talk, and so little action, in regard to water ditches in this county, and the answer will be a sly wink—as much as to say, "Why, sir, you are a little verdant. Wait for a ditch to be built and you will be too old to use the water from it." Thus it is; we have grown tired of looking for any benefit from ditches.—"Hope deferred maketh the heart sick."

We all look for rain—a pouring down for at least "forty days and nights"—as the only great benefit to us—that we may revive our fallen hopes—that we may extract the vastly rich treasures from our dried and parched hills and valleys, and make up for the three long years of sunshine and drouth.

But let us still hope—and by and by the storm will come as in years gone by—the winds will howl and moan through the valleys—the very mountains will quake—clouds, thick and heavy, will settle over us—and streams of living water, at last, will cheer us, as they murmer through every creek and gulch in the county. Let us not yet despair! Better days are coming!

THE Electoral vote of this State stands,

For Buchanan - - - -	42,460
" Fillmore - - - - -	28,827
" Fremont - - - -	16,721

Thus Buchanan lacks 1588 votes of a majority of all the votes cast, while he has a plurality over Fillmore of 14,133, and over Fremont of 25,739, a result little expected by the most sanguine of the Democrats, and not at all expected by we, us and our party. Salt River is some distance from here, and is impracticable, and we propose that, in lieu thereof of attempting to visit the aforesaid river, that we visit the independent nations of Native Americans who dwell high up upon the Merced and Fresno rivers, and among other things, ascertain whether their assistance can be obtained for the next election. Those who go, will no doubt receive the best the "natives" have got. Acorns and roots are plenty, and with a few squat traps, coons and the delightful animal known as the "prock," might be taken in; so there would be no lack of subsistence. Female society, too, is abundant, and we predict a good time generally to those who go.

BIG TREES.—We are informed by Judge Burke, who has recently returned from Visalia, that a grove of big trees have been discovered upon a branch of King's river, near the saw mill of O. K. Smith, the Representative elect of Fresno and Tulare counties. The grove contains over 1000 trees, by actual count, varying in size from eight to thirty-two feet in diameter. Many of them are from 325 to 375 feet high. The species of tree is the same as those in Calaveras county, which are attracting so much attention. Many have, since the discovery of this grove, visited it, and the above statement, we are assured, is no exaggeration. We shall endeavor to learn some further particulars in regard to it.

RETURNED.—It is with much pleasure that we announce the return of Rev. J. C. SIMMONS and family, to Mariposa, from Sacramento, whither Mr. S. had been for the purpose of attending the yearly Conference of the Methodist Church South.

Mr. Simmons has received a re-appointment to this place, and none could have been made more in accordance with the wishes or to the better satisfaction of our citizens.

DR. THOS. PAYNE.—The numerous friends of Dr. Payne in this vicinity, will be pleased to learn that he has resumed the practice of Medicine in Mariposa. We invite attention to his card in another column.

We are indebted to Mr. GARDNER of the Pacific, and Mr. CONDON of Wells, Fargo & Co.'s Express for the prompt delivery of California exchanges.

Summary of Eastern News.

The *Golden Gate* arrived in San Francisco at 1 o'clock, P. M., bringing up 826 passengers and 594 packages merchandise. Not a single case of sickness occurred on the passage, and health on the Isthmus was excellent.

We have dates from New York of the 20th of Oct., from which we take the following items:

Wm. T. Coleman, President of the Vigilance Committee, San Francisco, has again been arrested upon complaint of Billy Mulligan, and held to bail in the sum of $25,000. With the order for Coleman's arrest, was an order for the arrest of thirty-eight other members of the Committee, who are represented by Mulligan as having done him irreparable injury in the loss of valuable time and business, which he represents to be worth $250 per month, together with a large loss of property. He states that he has been handcuffed and maltreated by the defendants, contrary to the statutes so made and provided.

Charles P. Duane has likewise made complaint against James Dows, another member of the Committee, whose arrest was ordered and bail fixed at $15,000.

No member of the Committee can hereafter visit New York without being liable to arrest, as a warrant, upon complaint of Mulligan, has been issued for that purpose.

Severe gales have occurred upon the eastern coast. The steamer "City of Savannah," foundered near the capes of Virginia, and was a total loss, which was estimated, including cargo, at $120,000. No lives lost.

The steamer "Connecticut," plying upon Long Island Sound, was, upon the night of the 17th ult., overtaken by an awful gale and nearly wrecked. She succeeded, however, in reaching Huntington harbor, waterlogged, with one smoke pipe down, guards smashed and main beams broken. Her preservation was little short of miraculous.

The ocean steamer "Borussia," with 485 passengers, when within 170 miles of New York, broke two blades of her propeller, which caused her to spring a leak. She however kept on settling gradually by the stern; she succeeded, however, in reaching Sandy Hook and was taken in tow. Her escape is owing entirely to water-tight compartments.

Troubles in Kansas seem to have nearly ended. Lane and his force have left the territory. A telegraphic report, received just before the sailing of the steamer, states that 240 Free State men had been arrested by U. S. dragoons and taken to Lecompton.

Wholesale charges of fraud are made against the Democrats in Philadelphia.—The vote was increased eleven thousand over the highest ever thrown before.

Terrible election riots have occurred in Baltimore. Four were killed and some sixty wounded; six of whom are mortally so.

A fusion was talked of in Pennsylvania between the Fillmore party and the Fremonters. A call had been issued for the purpose, but leading Fillmore men responded in a card that they would have nothing to do with a convention, or with them.

HEAR GOV. WISE, of Virginia, in a recent speech at Richmond:

As to the military force of the North, as a means of subjugating the South, it is the most idle and ridiculous idea that was ever started. The South has *two to one more trained soldiers* than the North. The South has a territory *which cannot* be invaded except on her very borders, with any chance of mischief from Northern hordes. The South produces the great staples on which depend the manufactures and commerce of the North. The South, *as a people, have more soldiers in proportion to their population capable of going through the dangers and privations of war, than any people on earth.* Throughout almost the entire North the system of training the milita has been abolished, and in its place has been substituted the collection of arms which are never used, and the enrolment of men who are never called out. The tax collector's books would furnish as good an index of the military power of those States as their militia roll. What, then, have they to depend upon—supposing that, according to Mr. Speaker Banks, they chose to exercise their power as the majority and possessors of the federal government—what have they to depend upon as the means of subjugating the South? Could this Fremont government possibly bring to bear upon any single point of the South more than a thousand regular troops? And are we to shrink before such a demonstration as this? Are the fifty thousand armed and trained milita of South Carolina, or the two hundred thousand sturdy Virginians or Marylanders, to hesitate in following their convictions and their duties because so pitiful an object as this may be interposed?

Hon. John M. Botts, in responding to the charge made by Gov. Wise, that he was a traitor, says, that Gov. Wise is both a traitor and a lunatic. How far Botts is out of the way, we leave to our readers of the above paragraph. Certain it is that Gov. Wise, and others of the same stamp, are doing more to embitter the people of different sections than all other influences put together. Such remarks are uncalled and untrue, whether repeated by Gov. Wise or echoed by smaller fry. Let this crowd be countenanced and approved, as well as that headed by Beecher, Horace Greely & Co., and if this Union does'nt go to the devil within five years, it will be through the interposition of a particular Providence.

TELEGRAPH EXTENSION.—The telegraph wires have been extended from Downieville to Monte Cristo. The first dispatch, which was forwarded to the Sierra *Citizen*, says:

Snow is lying loose around, and mountain avalanches from house-roofs are raising the devil generally.

THRIFTY.—The community in and about Vallecito, upon Bear Creek, one hundred and one children of assorted sizes, old enough, and not too old, to receive the attentions of a pedagogue in the matter of teaching their young ideas how to fire, in an approved manner. Daniel Wood officiates in that capacity; and we, doubting his ability to govern, he having a meek Deuteronomy-kind of a look, asked him how he governed, whether by "moral suasion," or with the rod? Daniel said "suasion" was the principal article used, but when any of the brats got particularly "opstropulous," he would take them across his knee and "squich" them, which he represented as effective. We looked in Webster for the meaning of the term, but it was'nt "thar." so that the manner of his government, in extreme cases, is to us a matter of doubt.

MESSRS. CLARK, LAMON & Co., proprietors of the Bear Creek Steam Saw Mills, have recently enlarged their establishment and added a machine for ploughing and matching boards; also a machine for mortising; a machine for making tenons, and a planing machine. These machines have recently arrived from the States, and are of the latest pattern and improvement.—They will be run in connexion with their saw mill, and will be of great advantage to people wishing to procure planed, ploughed and matched lumber, or frame work, executed to order.

HON. S. A. MERRITT & ALEXANDER DEERING, Esq., have formed a law co-partnership, as will be seen by reference to the Card, and will occupy the present office of Mr. Merritt.

Those acquainted with both, or either of these gentlemen, need no assurances from us of their legal ability, or of their giving prompt attention to business entrusted to them.

We learn that an extensive revival of religion is being experienced at Stockton. Over two hundred, at the present time, are the results of this unusual excitement. We wish we in Mariposa might experience its benificent effects, sufficiently at least, to induce our people to attend church more regularly, and support their preacher in a better manner.

The late Chinese Battle.

Expensive.—Mr. Hanley, a Chinese interpreter, in a communication to the Union *Democrat*, concerning the recent Chinese fight in Tuolumne county, says:

"The expenses incurred by the fight cost the Yan-wos $20,000 and the Sam-yaps upwards of $40,000, which comes out of the pockets of the miners, who I expect will have to do penance for the next year to come; for when the tax collector comes around, should he not have money to pay his tax, the bandy revolver and ever-ready boot will be used with the utmost liberality on his person. The sore which John has inflicted on himself will take a long time to cure over."

Cruelty.—He also gives a picture of the barbarity of these people enough to prejudice all persons against the race. Mr. Hanly being an adept in their language and customs, can be relied on. Speaking of the battle, he says:

On the morning of the 26th of September, the members of the Yan wo, 900 strong, started from Chinese Camp to meet their opponents, who were 1200 strong, at the place agreed on. About 10 o'clock, A. M., both parties came into a collision. They fired in all about one hundred shots and retreated, killing two of the Yan-wo men, and wounding one. Two of the Sam-yaps were wounded, one having his nose blown off, and the other his leg broken close by his ancle. As soon as the Sam-yaps had wounded two of the Yan-wos, they instantly rushed on them—stabbed them all over the body, carried them off on tridents, out of the reach of the enemy's bullets, and cut them to pieces as they would a hog, and afterwards carried the remains out of sight, burned them to ashes and scattered them to the winds of heaven. The Yan-wo men, having but twelve muskets, were unable to compete with the Sam-yaps, retreated, more affrighted at the fifteen painted vagabonds than at the odd numbers of their opponents, but proposed to fight them with their Chinese arms, and cast their muskets aside. This the Sam-yaps refused, and retreated to their quarters at Rock River Ranch, about four miles distant.

CONFERENCE APPOINTMENTS.—At the yearly Conference of the Methodist Church South, recently held in Sacramento, the Rev. Mr. Blythe, with whom our people are well acquainted, was appointed to the church in Nevada and in Grass Valley. The Rev. Mr. Bigham was appointed Presiding Elder over this district. The Rev. Mr. Scaggs was appointed to preach in Quartzburg and vicinity, the present year, by which arrangement Rev. Mr. Simmons will be enabled to preach each Sabbath in Mariposa.

CHINESE FIGHT.—Constable Petty of Hornitas, brought to town, last Sunday, four Chinamen, who had been committed by Edw. Morton, Justice of the Peace of Indian Gulch, for being engaged in a fight upon the Merced, in which one Celestial was killed and several wounded. Verily, the Chinaman are becoming Americanized! They can drink any given quantity of whiskey, and fight with a looseness.—There are six of them now in our Jail, for the display of pugnacious dispositions and thieving.

WE notice numbers of Democrats in new clothes, purple and fine linen, with faultless dickeys! We wonder how they obtained them? They strut around and accost every poor shabby cuss they meet with, "Did you win anything upon election?" Where is our $12 Hat, we ask indignantly? If it isn't paid soon, we shall apply to the Democratic Club, and if they don't pay it, we'll tell of it.

The Mormons have adopted a new style of immigration, every man, woman and child who is able, dragging a hand-cart across the plains. They travel in companies, and are attended by a few choice wagons and teams for the use of the sick. The experiment is described as having worked admirably, and quite a number of "hand cart" companies had arrived in sound health and buoyant spirits. The first company, that of Capt. Edmund Ellsworth, was met a short distance from Salt Lake City, by President Young, a large number of ladies, and escorted to town with every mark of distinction.

The Ball at Coultervlle is represented to us as having been a fine affair. A large party were in attendance; ladies from Columbia, Sonora, Stanislaus county and Mariposa, were present. Mr. Coulter had made every preparation, and it requires little exertion upon his part, to please, as all know of his acquaintance. We would like to have attended, but circumstances prevented.

A MAN IN A SHAFT.—A man who was intoxicated, in going from Georgetown to Mameluke Hill, on election night, fell into a shaft fifty feet in depth, where he stayed until November 8th when his cries attracted the attention of a Mr. Pearson, who hauled him out His arm was broken above the elbow, and not having eaten anything for four nights and three days, he was very much exhausted, but will recover.

CONSTITUTIONAL AMENDMENT.—The vote throughout the State on the proposed Constitutional amendment is almost unanimous. In San Joaquin Co. 1300 electors voted for it, and 13 against it, which is a fair criterion of the vote of the State.

THE VERY BEST.—Those who desire the finest Ambrotypes and Daguerreotypes that can be taken, should by all means call at the gallery of Dr. Hubbell & Co., Main street, Mariposa.

THE Governor has appointed Thursday, the 20th, (to-morrow,) as a day of thanksgiving.

Mariposa Gazette.

LOCAL ITEMS.

As provisions grow scarce, and credit has become difficult to obtain, the hogs are diminishing in town, at the rate of from five to eight per day. Pitch in and secure your winter's pork. Young bacon fried with eggs can be worried down, providing a man is hungry and cannot get anything better.

CIVILIZATION.—The Chinamen generally about these diggings have adopted the American style of dress—are learning to play at rondo, smoke tobacco in pipes, and drink brandy and lager beer.

ABLE TO BE OUT.—That black Hog, long, slim and wiry, of the masculine gender, first person, singular number—particularly, of the possessive case, and governs circumstances, according to the rule in this Burg, that hogs have the right to steal, invade kitchens, and are entitled to perquisites whenever and wherever they can make a grab. The aforesaid Porker was laudably engaged in tipping over our cooking stove, when we took him slightly in the head with a pistol ball, from the effect of which we hoped to be able to record his decease; but lo! after an absence of a week he has returned seeking whom he may devour. He looks somewhat rusty and attenuated, but we knew him, d—n him.

GOODS.—The merchants in town are all supplying themselves with large assortments of winter goods, trusting to Providence for abundant rain, and the ability of miners to pay for them. Among the largest invoices that have of late arrived, are those to Sullivan & Co., McDermott & Co., Oppenheim & Co., Cohen, Samuels & Co., and numerous others.

LIVERY AND FEED STABLES.—James G. Read of our town has opened two Stables in order to accommodate his patrons, and receives as he deserves to, a large patronage. He keeps animals for $10 per week, on all the hay and barley they can eat.

INDUSTRY.—Some of the most industrious and money-making of our denizens are the French wash women. Their industry deserves success—and their beautiful cottages and well attired families show that they receive it.

"VANDYKE'S BEST."—Van has obtained from Bond below, several casks of the "critter," which is pronounced by competent judges better than "the best," which was so great a favorite with the public a short time since. As we don't imbibe, our friends who do, will call and judge for themselves.

The Turkey shoot on Saturday, was a very successful one—for the owners of the turkeys; they bringing, we hear, near eight dollars apiece upon an average.—Our marksmen must have been in poor luck or something else.

A shooting match for Beef will take place at Mariposita, near Alexander's Ranch, on Saturday next. The usual rules of shooting, in such cases, will be observed.

IMPROVEMENTS.—We select the two following notices of improvements at Deseret, on account of the characteristic manner in which they are mentioned:

Prest. Grant, in the midst of his missionary labors and farming improvements and operations, is enlarging his city residence, feeling that want of more dwelling room, so incident to those who observe the "peculiar institution."

The Court House is receiving its domecapped cupalo; large loads of huge stones are being rolled on to the Temple Block, and workmen are busily engaged in cutting them; and numerous minor improvements are actively prosecuted, all tending to beautify and make commodious the habitations, grounds, and streets of this quiet, industrious, *moral* and *exemplary metropolis of the Saints.*

Agents for the Gazette.

☞ MR. L. P. FISHER is our only authorized Agent in San Francisco, to receive Advertisements, receipt for the same, and to transact business generally for the Gazette Office, Iron Building, opposite Pacific Express Office, up-stairs.

☞ MR. THOMAS M. HESTON, Expressman between this place and Millerton, is our authorized Agent to receive Advertisements, Job Work, Subscriptions, or Monies intended for this Office.

☞ MR. JOHN E. METSON, Mail Carier between this place and Sonora, is authorized to receive any advertisements, job work, subscriptions, or moneys intended for the Mariposa Gazette.

NOTICE.

J. M. VANDYKE intends to close up his business in Mariposa, and requests all persons who are indebted to him, to call and settle their accounts—by so doing they will confer an everlasting obligation.

☞ N. B. Also, all parties to whom I am indebted, are particularly requested to present their bills.

Yours, &c. J. M. VANDYKE.

Mariposa, August 8, 1856. au8tf

Mariposa Gazette.

The very Doleful Ballad of Villikins and his Dinah.

There was a rich Merchant in London did dwell,
He had but one daughter, an uncommon nice young gal,
Her name it was Dinah, scarce sixteen years old,
With a very large fortune in silver and gold.
Chorus.—Too-ral-lal lu-ral lal lural lal-la. (*Rep.*)

As Dinah was a-walking the garden one day,
Her Papa he come to her, and thus he did say,
"Go dress yourself Dinah in gorgeous array,
And I'll fetch you a husband both gallant and gay."
(*So sing*) Too-ral, etc.

"Oh Papa! oh Papa! I've not made up my mind;
To marry just yet, why I don't feel inclined;
And all my large fortune I'll gladly give o'er,
If you'll let me be single a year or two more!"
(*Singing*) Too-ral, etc.

"Go, go, boldest daughter!" the parent replied,
"If you don't consent to be this young man's bride,
I'll leave my large fortune to a nearest of kin,
And you shan't reap the benefit of one single pin,
(*And I'll sing*) Too-ral," etc.

But Dinah she could not her father obey,
For she loved another who was far away;
So she went to a chemist his shop as was nigh,
For some poison for she'd made up her mind to die.
(*Still singing*) Too-ral, etc.

As Villikins was a-walking the garden around,
He saw his dear Dinah lying dead upon the ground,
A cup of cold poison it lay by her side,
And a billet-deux as said as how of poison she died.
(*Sing low*) Too-ral, etc.

He kiss'd her cold corpus a thousand times o'er;
He call'd her his Dinah, though she was no more;
He swallow'd the poison, like a lover so brave,
And Villikins and his Dinah lies a-buried in one grave.
(*Singing*) Too-ral etc.

MORAL.

So all you young maidens, take warning, and nor
Never not by no means disobey your governor;
And all you young fellows on whom they clap eyes on,
Think of Villikins and Dinah, and the cup of cold poison,
(*Unless you would sadly sing*) Too-ral, etc.

BENEFIT OF THE SPRINGS.—A lady brought a child to a physician to consult him about its precious health. Among other things she inquired if he did not think the springs would be useful?

"Certainly, Madame," replied the doctor, as he eyed the child, and then took a large pinch of snuff. "I hav'nt the least hesitation in recommending the springs—and the sooner you apply the remedy the better."

"You really think it would be good for the dear little thing, don't you?"

"Upon my word its the best remedy I know of."

"What springs would you recommend, doctor?"

"Any will do, Madame, where you can get plenty of *soap and water*."

If a girl has pretty teeth, she laughs often—if she's got a small foot, she'll wear a short dress—and if she's got a neat hand, she's fond of a game of whist—if the reverse, she dislikes all of these small affairs.

A lady was driving with Charles Lamb near where some gentlemen were bathing *in puris naturalibus*, when Charley remarked, after an awkward silence, that "it was shameful for women thus to expose themselves." "Women!" exclaimed the prude by his side, "they are not; they are *men*." "Ah," replied the gentle-hearted Charles, "*I did'nt observe.*"

EFFECTS OF GRIEF.—Various are the effects made on people by grief. Some become insane, others the reverse; some turn gray, and we hear of a case of a lady, whose hair was gray, having lost her husband by death; in two days after her hair was of the color of jet.

SLANDER.—Against slander there is no defence. Hell cannot beget so foul a fiend nor man deplore so foul a foe. It stabs with a smile. It is a pestilence walking in darkness, spreading contagion far and wide, which the most wary traveler cannot avoid. It is the heart-searching dagger of assassins. It is the poison arrow whose wound is incurable. It is as fatal as the sting of the most deadly asp; murder is its employment, innocence its prey, and ruin its support.

San Francisco and Miscellaneous Advertisements.

THE ELECTRO CHEMICAL BATHS,

OF DR. BOURNE,

Southeast Corner of Sansome and Commercial Streets, opposite St. Nicholas Hotel,

SAN FRANCISCO, CALIFORNIA.

ARE affecting the most extraordinary CURES of Fever and Ague, Intermittent and other Fevers, Jaundice, Diseases of the Liver, Kidneys, the Genital and Urinary Organs, all Sexual Disorders, Paralysis, Neuralgia, including Tic Doloreux, Stiff Joints, and are also employed with astonishing success in

DISEASES OF THE EYE.

Also, all Indolent Ulcers, Tumors, Swellings, Abscesses, Cancer of the Womb, all other affections of the Womb, and Cancerous affections generally, and Scrofula. These Baths seem to be Nature's own chosen medium for effecting cures where all other means would fail without them; and prove beyond the possibility of doubt, to all who take them, the iniquity of Medical practice, which poisons the human system by administering to it calomel, arsenic, lead, zinc, iron, antimony, quinine, iodide of potassa and a whole host of deadly drugs which remain in the system, and are EXTRACTED BY THESE BATHS.

During nearly fifteen years I have never given even a solitary dose of oil or salts, much less any POISONOUS DRUGS, or herbs, and have never seen a case in which they were requisite if Water Treatment was employed. When will the people cease to be such simpletons as to hire men to POISON and BLEED them, while they also retain on their statute books laws against poisoning, maiming and bleeding CATTLE? Are the members of the human family less worthy of protection than animals? I assert in the face of this entire State and the world at large, that there never was, is not now, and never will be, a case in which calomel, crude mercury, quinine, arsenic, lead, zinc, iron, antimony, iodine, or any other POISON, should have been, or be administered to the human system, or in which bleeding, cupping or leeching, was required; and further, that hundreds of thousands fill premature graves through an ill-timed or over dose of salts or oil. Let the people ponder on these things, and if the poor and deluded victims of medical rascality desire health, I pledge the honor of one man at least, that I will so employ NATURE'S AGENCIES of good food, air, pure water, exercise, clothing, the Electro-Chemical Baths, and the sleeping and walking hours, that without a particle of NASTY and POISONOUS medicine, I will so arouse the powers of their systems that if there be any strength left they shall speedily get perfectly well in body, with minds so expanded to the perception of natural philosophy, as thereafter to cause them to set their faces against all professional rogues and fools, and awake them to a knowledge of the evils of entrusting their own vital interest to the keeping of others, whose interest must ever be antagonistic to their own.

Address, by letter or personally, Dr. BOURNE, Water Cure Physician, Sansome street, opposite St. Nicholas Hotel, San Francisco, importer into this State of the FIRST and ONLY apparatus for giving these delightful and beneficial Electro-Chemical Baths, and whose experience in their use WARRANTS him in speaking of the in them terms he employs.—They require great caution in administering them, and Dr. Bourne never entrusts that duty to others, thus avoiding all danger.

So many lying and forged certificates, and PRETENDED editorial recommendations are published, that those truthful statements of facts which Dr. Bourne could offer, are withheld, rather than any should suppose they were merely "got up."

Consultations without charge, and charges very moderate for the benefits conferred.

QUICK CURE—SURE CURE—(if curable)—is the motto of Dr. BOURNE.

PIONEER WATER CURE INSTITUTE.

Southeast Corner of Sansome and Commercial Streets, opposite the St. Nicholas Hotel, San Francisco.

DR. BOURNE, Water Cure Physician.

Having every facility for the scientific administration of Water Treatment, offers the advantages of this natural, rational, and most efficacious mode of curing diseases, to invalids, in either acute or chronic stages of suffering, and especially to those laboring under the RUINOUS EFFECTS OF CALOMEL, and Drug treatment generally.

There are no nauseous or poisonous medicines to swallow or pay for, as Dr. BOURNE does not administer any whatever, nor bleed, cup or leech; so it is not only the BEST but CHEAPEST system for restoration to health.

In Chronic or acute rheumatism, Diarrhœa, Dyspepsia, Fever and Ague, Isthmus Fever, ALL Nervous and Sexual disorders—in fact, in all cases, the WATER CURE is of unequaled value.

Apply personally, or address by letter, as above.

PARTICULAR NOTICE.

The "Russian," Digger Indian, Turkish, or Egyptian "Steam baths,"—the invention of barbaric minds—with all their EVIL CONSEQUENCES to Weak Lungs, Palpitating Hearts, and debilitated Digestive and Nutritive Organs, are NOT Water Cure, and bear no more relation to that glorious system than does a horse to a red herring, notwithstanding all the false representations to that effect. Dr. Bourne is the Pioneer, and only Water Cure Physician on the Pacific Coast, and is daily demonstrating his skill in his art with the highest success—curing those whom the medical fraternity had placed almost beyond the confines of hope; such being the general character of the cases demanding and receiving relief at his hands. Let them continue to come and be healed and converted to this wiser and better way. s24-3m

The Eyes! The Eyes!!

DR. E. H. PARDEE, OCULIST.

AFTER a protracted blindness of more than five years, DR. PARDEE has made himself thoroughly and scientifically acquainted with all disorders of the Eye, and is now practising, with universal success, the same treatment by which he was cured.

A WORD OF CAUTION—The Eye is by far too precious and delicate an organ to be trifled with or made the subject of random experiments; therefore it would be exceedingly unwise, and perhaps dangerous, to accept any of the "Never-Failing Cures" that are tendered by the mistaken kindness of all around," for every one offers a specific for diseases of the eye.

☞ Many patients can be seen daily at the office of DR. PARDEE, in different stages of recovery.

San Francisco Advertisements.

DR. J. C. YOUNG

Corner of Montgomery and California sts. over Wells, Fargo & Co's Express Office, San Francisco.

Is the pioneer advertising Physician of California, and the only one who received a Collegiate Medical Education, and is better qualified to treat, and has cured more cases of Private Disease than any other physician. For reference, see all of the papers throughout the State.

CONSTITUTIONAL DEBILITY, OR SEMINAL WEAKNESS.—Dr. YOUNG addresses those who have injured themselves by private and improper indulgences in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society. The following are some of the sad melancholy effects produced by early habits of youth, viz: Weakness of the back and limbs, pain in the head, dimness of sight, loss muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption. &c.

MENTALLY the fearful effects on the mind are more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forbodings, aversion to society, self-distrust, love of solitude, timidity, &c. &c. are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to health. Let no false delicacy prevent you, but apply immediately, and save yourselves from the dreadful and awful consequences of this awful malady.

WEAKNESS OF THE ORGANS immediately cured, and full vigor restored.

Dr. J. C. YOUNG.
Cor. California and Montgomery sts. (up stairs.)

IMPORTANT TO MINERS, TRAVELERS, ETC.

THERE is no malady of deeper importance, either in a medical or moral point of view, to which the human family is more liable than that arising from impure connections.

As a Medical man it is the duty of every physician to look at disease as it affects health and life, and his sole object should be to mitigate, as far as lies in his power, the bodily suffering. Human nature at best is but frail, all are liable to misfortune.

Of all the ills that affect man, none are more terrible than those of a private nature. Dreadful as it is in the person who contracts it, frightful as are its ravages upon his constitution, ending frequently in destruction and a loathsome grave, it becomes of still greater importance when it is transmitted to innocent offspring. Such being the case how necessary it becomes that every one having the least reason to fear that they have contracted the disease, should attend to it at once by consulting some physician, whose respectability and education enables him to warrant a safe, speedy, and permanent cure. In accordance with this necessity, DR. YOUNG feels called upon to state that, by long study and extensive practice, he has become perfect master of all those diseases which come under the denomination of venereal, and having paid more attention to that one branch than any other physician in the United States, he feels himself better qualified to treat them.

Syphilis in all its forms, such as Ulcers, Swelling in the Groins, Ulcers in the Throat, Secondary Syphilis, Cutaneous Eruptions, Ulcerations, Tertuary Syphilis, Syphilis in children, Mercureal Syphilitic Affections, Gonorrhœa, Gleet, Stricture, False Passages, Inflamation of the Bladder and Prostrate Glands, Excoriations, Tumors, Postules, ect., are as familiar to him as the most common things of daily observation.

The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will destroy upon him the slightest suspicion, or oblige him to neglect his business, whether within doors or without. The diet need not be changed, except in cases of severe inflamation. There are in California patients, (amounting to over two thousand in the past year,) that could furnish proof of this; but these are matters that require the nicest secrecy, which he always preserves.

All letters, enclosing $10, will be promptly attended to Office hours from 9 A. M. to 8 P. M. Address J. C. YOUNG, M. D., Express Building,

Corner of Montgomery and California streets, over Wells, Fargo & Co.'s Express Department.

TO THE AFFLICTED—Persons troubled with disease should peruse the following Letters of Recommendations, from DR. J. C. YOUNG'S patients.—They are voluntary offerings of gratitude to him for benefits received, and are proofs strong as Holy Writ, of his scientific attainments. No one can read them without at once having confidence in him, and we confidently make the assertion that people afflicted with private or other diseases, will call upon him in preference to any other physic an in the country.—Read them carefully, ye that need medical assistance, and then lose no time in consulting him while there is time left to cure you in.

MARYSVILLE, June 16th, 1855.

DR. J. C YOUNG, DEAR SIR:—Please send me some of the medicines you prescribed in my case. I have a friend here who is troubled in exactly the same way that I was. He has nightly emissions ringing noise in his head, weak back, loss of memory, and is generally debilitated; he is discouraged and has not confidence enough to enable him to call and see you. I told him how I was, and that my friends all said I was in consumption, and the doctors up here gave me up, and advised me to go home and die, but instead of going home I called upon you, and here I am as well as any of them, and likely to live a long time yet, with strength enough to work with the strongest of them. Doctor I will send every one to you that looks to me as though he needed a physician. It shall not be my fault if any one dies for want of medical treatment. I will do all I can to keep the afflicted away from those pests of society, yclept professors and high-sounding titled men who, if the facts were known, are more to be left their country for their country's good. Publish this letter Doctor, if you wish, and I hope that some of those that humbugged me may see it and sleep bad for one night.

Truly yours, GEO. DAVIDSON.

GRASS VALLEY, June 20, 1855.

DEAR SIR:—The last medicine you sent me has done the business. I am now perfectly well, and wish to give my testimony to the public in favor of your skill. I was troubled with a complication of diseases brought on by that soul destroying habit of self-pollution, and complaints caught by connection with bad persons of the opposite sex. I have been treated by some of the best physicians, as well as those quacks who infest this State, and by them oil given up as incurable; but being advised by a friend who had been benefitted by your scientific treatment, to call upon you. I did so, and feel grateful to him for the information, but still more thankful to you for the care and good advice you gave me, as well as the efficatious medicines you prescribed. If any of the afflicted should see this, let them be sure that it is a voluntary offering in gratitude for the blessings of health received from you, and also given with a fervent wish that it may be of service to those suffering as I did; and now may God bless you in your effort to lessen the sufferings of the human family, and may all good citizens assist you to drive from the community these leaches that prey upon the public by false pretensions of eminence in the medical world. Yours eternally. JOHN BURGESS.

To Dr. J. C. Young, San Francisco.

PLACERVILLE, May 28, 1855.

DR. J. C. YOUNG—DEAR SIR:—Words cannot express the gratitude I feel is due to you for the benefit I have received from your truly invaluable course of treatment of my case while prescribing for me. I think I cannot justify myself without giving this small token of my thankfulness and esteem, for you have been the means of saving my life, and restoring to me that health which I had so long despaired of again enjoying. I had for a long time (four years) been troubled with that most dreadful scourge of young people, seminal weakness, or nocturnal emissions, which so weakened me, by body and mind, that I was obliged to give up mining altogether. I consulted one of the best physicians, (so called,) in the mountain districts, and after a carsful examination of my case, he gave me medicines. I continued under his treatment for three months without receiving any benefit, in fact, I grew worse frhm week to week, until at last I got discouraged and asked him for his opinion. I told him not to fear to tell me the whole truth, for I should rather know the worst at once, than to live in suspense. I had lost about thirty pounds of flesh, and knew that he at least could not cure me, and as I was then going on, death must soon count me as one of its victims. This physician then told me that my case was incurable; that I had better not take any more medicines He said I was in a decline, which was fast tending to pulmonary consumption.

I then despaired of obtaining any relief, and saw that unless something was done to mitigate the complaint, that I should be numbered with the dead, or what is worse, be a raving maniac. Happening to see one of your books, the Pocket Æsculapius, I made up my mind at once to call and consult you with the determination of trying once more to get relief if you would undertake the case. Oh, how thankful I am for that determination! I commenced taking the medicines prescribed by you, and I am now, through their healing powers, restored to perfect health. I shall not fail to recommend you to any of my friends that require assistance, for a man that can cure a case as bad as mine was, can cure every disease that flesh is heir to, if there is life enough left in the system to build upon.

Receive my most sincere and heartfelt thanks and esteem. S. W. REIGHLEA.

SAN FRANCISCO, June 2d, 1855.

DEAR SIR:—I have not had one single fit since I commenced taking your medicines; I am also gaining strength every day. The trouble that I had, which was the cause of the fits, is also leaving me very fast. In fact, I think I am entirely well, but if you think it best, I will take medicines a short time longer. It is only about two months since I commenced taking your prescriptions, and although you told me it would take from three to four months, yet I feel perfectly well already. I feel sorry that I did not visit you at first, and not allow myself to be led away by the vain boasting of those quacks that copy your style of business, and thereby impose upon the public. They despoiled me of my money, and if I had not stopped taking their vile stuff, they would have robbed me of my life also. Thanks to your superior medical skill, I am beyond danger, and I shall always consider you the savior of my life.

Dear Dr.—Publish this if you consider it worth your while, for I wish to proclaim to the world your worth, that every one who needs a physician may know where to call, and be sure of avoiding deceit and imposition. Yours, till death. GEO MARSHAL.
